PROFILE

Multi-media artist specializing in UX UI Design and music composition, engineering and sound design. Composed and recorded music for commercials, full-feature films, and video shorts. Extensive experience in restaurant technologies; programming remote/digital point of sale systems, menu design/layout, and promotional graphics. 15+ years in the hospitality industry in management positions as a team leader, staff trainer, and helped produce a service driven environment.

EDUCATION

STARTUP INSTITUTE CHICAGO 2016

Web Design Track

- The Startup Institute Web Design Track is a highly selective and immersive program designed to cover every phase of front-end development and interface design with an emphasis on user-centered principles.
- Built on the product development life cycle, the curriculum simulates real-life challenges to prepare designers to successfully take a project from concept to launch.
- The Design program intensely covers universal principals of U/X and U/I Design.
- The industry languages HTML, CSS, JavaScript, and jQuery are learned at a highly functional and comprehensive level.

BYU IDAHO 2015-present

Software Engineering Program

VOLUNTEER

Foundations in Music (Rock for Kids)/Volunteer 2010-2011 Taught children music in three different Chicago Public Schools, in various foster homes and Catholic Charities after school programs.
